Fall 2021 Virtual Distinguished Lectures

September

Sept. 14
Arjun Raj, Ph.D.
University of Pennsylvania
Emergent Cellular Ecosystems in Melanoma Revealed By Single Cell Analysis
Faculty Host: Maureen Murphy, Ph.D.

Sept. 28
Nicholas Proudfoot, Ph.D., FRS
University of Oxford
Different Mechanisms Define IncRNA and Protein Coding Gene Transcription Units In Mammalian Cells
Faculty Host: Alessandro Gardini, Ph.D.

October

Oct. 12
Moshe Oren, Ph.D.
The Weizmann Institute
Mutant p53 Gain-of-Function in Cancer
Faculty Host: Maureen Murphy, Ph.D.

Oct. 26
Andrés Aguilera, Ph.D.
University of Seville-CABIMER
Prevention and Resolution of R Loop-mediated Transcription-Replication Conflicts
Faculty Host: Kavitha Sarna, Ph.D.

November

Nov. 9
Catherine Hedrick, Ph.D.
La Jolla Institute for Immunology
TBD
Faculty Host: Nan Zhang, Ph.D.

December

Dec. 14
Judith Varner, Ph.D.
Moores Cancer Center - University of California, San Diego
TBD
Faculty Host: Rahul Shinde, Ph.D.

Tuesdays, 12:00 pm
For more information, call 215-898-3944
A GoToMeeting link for each seminar will be provided in subsequent email reminders.
