

## License Requirements at the Hospital of the University of Pennsylvania

All programs must abide by the [UPHS Policy on Licensing of House Staff](#)

### **Licensing for House Staff Entering an ACGME Accredited Program**

All ACGME accredited programs at the Hospital of the University of Pennsylvania require a Medical Training License. Unrestricted licenses will not be accepted for ACGME accredited residents and fellows.

All applicants will need to complete the Pennsylvania Act 31 Mandatory Continuing Education course with each application and/or renewal.

Act 31 is a mandatory Continuing Education credit the State of Pennsylvania is requiring for all licenses issued in any health-related field. This means that all initial applicants, as well as all renewal applicants, MUST complete the on-line computer course for Act 31.

Details can be found at [www.dos.state.pa.us/med](http://www.dos.state.pa.us/med).

All applications for Medical Training licenses **MUST** be submitted by the Hospital of the University of Pennsylvania Radiology Graduate Medical Education Office.

*Each year the MT application is released by the State. Once you are accepted into an accredited program, the Radiology GME office will send you the most up to date application during the credentialing process.*

*If you have previously held a Pennsylvania Medical Training license, you can request a renewal form from your current program or from the Radiology GME office.*

You must meet all requirements set forth in the applications in order to obtain a Medical Training License in the Commonwealth of Pennsylvania.

#### ***International Medical School Graduates:***

Prerequisite training for entry into a subspecialty fellowship program should include the satisfactory completion of a diagnostic radiology residency program accredited by the ACGME or the Royal College of Physicians and Surgeons of Canada.

Foreign Boards Comparable to US Boards:

### **Licensing for House Staff Entering an Unaccredited Fellowship Program**

All Unaccredited Fellowship Programs require a Pennsylvania Unrestricted License. Applicants are required to submit their applications directly to the State of Pennsylvania. Applications can be found on the State Board of Medicine web site under the Licensure Information tab.
